

## TABLE OF CONTENTS

### INTRODUCTION

Physics and Metaphysics. Introduction p. III

### REPORTS

The Third Interdisciplinary Ontology Conference  
Tokyo, Japan, 27-28 February, 2010  
reviewed by Michele Pasin p. XIX

Winter School: "Open Problems in Philosophy of Sciences"  
Cesena, Italy, 15-17 April, 2010  
reviewed by Pierluigi Graziani p. XXV

### PAPERS

Mauro Dorato  
*Physics and Metaphysics: Interaction or Autonomy?* p. 1

Gabriele Veneziano  
*String Theory: Physics or Metaphysics?* p. 13

John Norton  
*Time Really Passes* p. 23

Sam Baron, Peter Evans, Kristie Miller  
*From Timeless Physical Theories to Timelessness* p. 35

Vincent Lam  
*Metaphysics of Causation and Physics of General Relativity* p. 61

Claudio Garola, Sandro Sozzo  
*Realistic Aspects in the Standard Interpretation of Quantum Mechanics* p. 81

Giovanni Macchia  
*Expansion of the Universe and Spacetime Ontology* p. 103

Adriano Angelucci, Vincenzo Fano  
*Ontology and Mathematics in Classical Field Theories and Quantum Mechanics* p. 139

Tracy Lupher  
*Not Quite Particles, Not Quite Fields* p. 155

Friedel Weinert  
*Relativistic Thermodynamics and the Passage of Time* p. 175

#### BOOK REVIEWS

Bastiaan C. Van Fraassen - Scientific Representation: Paradoxes of Perspective  
reviewed by Bradley Monton p. 193

Yuri Balashov - Persistence and Spacetime  
reviewed by Lorenzo Del Savio p. 201

Steven French and Decio Krause - Identity in Physics: a Historical, Philosophical and Formal Analysis  
reviewed by Giovanni Casini p. 209

Tim Maudlin - The Metaphysics Within Physics  
reviewed by Emanuele Coppola p. 213

Carlo Rovelli - Anaximander  
reviewed by Umberto Maionchi p. 219

#### COMMENTARIES

A Structural Interpretation of Pure Wave Mechanics  
edited by Jeffrey Barrett p. 225

Metaphysical Language, Ordinary Language and Peter van Inwagen's Material Beings  
edited by Daniel Nolan p. 237

Michael Lockwood - The Labyrinth of Time: Introducing the Universe  
commented by Giuliano Torrenco p. 247

Robert Geroch - General Relativity from A to B  
commented by James Weatherall p. 259

#### INTERVIEWS

Adolf Grunbaum p. 267
