

BIBLIOGRAFIA

La seguente bibliografia registra i lavori che sono stati utilizzati nel corso dell'elaborazione teorica del testo. Vi compaiono anche titoli sulla teoria emergentista che non sono stati direttamente citati, con l'intento di fornire una base bibliografica ampia, anche se non esaustiva. Tale intento è giustificato dall'esigenza di guidare il lettore e lo studioso verso un orientamento di ricerca finora piuttosto trascurato nel panorama filosofico italiano.
